XFETTO ™

XFETTO ™

Attractive, slim, versatile &...

WITHOUT OUTDOOR UNIT

XFETTO AIR CONDENSED

DC INVERTER

HEAT PUMP

- SVPWM 180° full DC inverter technology
- Heat pump with cool, heat, dehumidify and fan functions
- Universal multifunction remote control with LCD display, I Feel sensor, wall mount and transmitter with a wide range of operation
- Temperature check comparison between remote control sensor and unit sensor
- iFeel function
- ECO and High Power functions
- Horizontal deflector with 6 positions set via remote control and iFlap function for intelligent air distribution
- Automatic fan speed and/or three set speeds available via remote control
- Condensing with variable speed fan
- Intelligent Cold draft and Defrost functions
- Additional electrical heating (820 watts) activated by the software in auto mode when the unit is unable to balance the thermal load, or manually activated/deactivated via remote control as a booster for the heat pump or as a Fan Heater
- Auto-restart following black outs and excess pressure protection devices
- High efficiency rotary compressor covered by a 5-year warranty
- Optional feet for floor installation (windows, loft conversions...)

ERP-ECODESIGN

PRODUCT NAME	Units	XFETTO DCI	
		Cooling	Heating
Features			
Cooling capacity	kW	1,85 [1,10-2,93]	2,27 [0,90-3,05]
Additional electrical resistance	kW		0,85
Energy label class	ABCDEFGF	A	A
E.E.R. / C.O.P.	(kW/kW)	2,61	3,17
Air flowrate (h.-m.-l.)	m ³ /h	330-300-280	
Dehumidification	litres/h	1,0	
Fan speeds	n°	3 + Auto	
Sound pressure (h.-m.-l.)	dB(A)	43-38-35	
Power supply	V/Ph/Hz	230/1/50	
Running consumption	kW	0,710	0,715
Annual energy cons. - A/C (500h)-Dir. 2002/31/CE	kWh	355	-
Refrigerant type		R410A	
Ducts diameter	mm	162	
Condensate discharge		by duct, outside or inside the room	
Net weight	Kg	49	
Net dimension (H./W./D.)	mm	735x839x260-280
